## PROFILE

I am a Bachelor of Science in Information Technology graduate with a major in web development. I have two years of coding experience and I am a self-taught programmer. During my studies, I worked as a capstone programmer within our group, and I also gained valuable experience as a Laravel API developer during my internship. I am currently learning Vue.js and Laravel to become a full-stack developer and improve my web development skills by creating projects using these frameworks. My goal is to become a web developer and apply my programming knowledge to enhance my skills and contribute to a company's success. I am currently seeking full-time employment opportunities and ready to start working.

## WORK EXPERIENCE

**Neksjob Corporation** | Web Developer Intern | February – April 2023

- Built a Laravel REST API project
- Collaborated with a team
- Used postman to test API endpoints
- Used bitbucket as our web-based version control repository hosting service
- Created token management to generate from client side
- Fixed some UI from company website
- Created one feature from scratch from their website to enable employers monitor their applicants
- Used technologies: Laravel, HTML, Bootstrap, Restful APIs, MySQL, Postman

## PROJECT EXPERIENCE AND SKILLS

- Basic knowledge in HTML, CSS, JAVASCRIPT, REACT, PHP, MYSQL, AXIOS
- Knowledgeable in VUE JS, LARAVEL, REST API, TAILWIND CSS, PINIA, VB, WINFORMS
- Used tools and platforms like Git, Github, Bitbucket, Visual Studio, VS Code, Postman
- Knowledgeable in Object Oriented Programming and Functional Programming
- Experienced in collaborating and teamwork with other programmers
- Assigned as programmer and developed MIS for TPJ Farm Company Capstone Project
- Assigned as programmer in our project in Game Development using Unity
- Developed personal projects using Vue, Laravel API, RESTful APIs, Tailwind CSS, Pinia
- Developed landing page and clone website using React, Tailwind CSS

## PROJECTS
